1. In November 1950, four mine-sweepers (Dragor) which were named D.74, D.75, D.76, and D.77 were being constructed at the IRN (Intreprinderea Romana Navala - Rumanian Naval Enterprise) Shipyard of Braila. Up to November 1950, two had been launched, and the work on the other two was still being continued.
2. The vessels which were launched had the following specifications:
  - a. Length: 50 meters.
  - b. Width: 14 to 15 meters.
  - c. Depth in water: about 15 meters.
  - d. Displacement: 800 tons.
  - e. Caliber of guns: 18 millimeter.
  - f. Armament: One gun at the bow and one at the stern protected by a shield, which had a thickness of 20 mm. In the fall of 1950, the Progresul Shipyard of Braila received the guns for repair (sic) before installations.
